Subject: RE: P2020/0195 - contaminated land

Dear Alison

Thank you for your representations on the above application. The issues you have raised have indeed been the subject of extensive correspondence, and our contaminated land officer has been reviewing all matters to ensure that he is wholly satisfied that there would be no unacceptable impacts. My understanding is that to date he is satisfied that there are no matters that cannot be addressed through the imposition of conditions.

Your concerns will of course be reported to the Planning Committee, with the report addressing such matters in detail. Please note that the TC is able to attend and address members at the remote Committee meeting (either on 18th August or three weeks after) should you request to do so.

Regards

Steve
