Dear Mr Watkins

I refer to the term "I have amended ' which confirms that the information you submitted to the magistrates court was incorrect and the legislation your quoted is defunct because your mailing was not 'properly addressed and I have proved this. You have not provided evidence to show that you have checked the electoral register to confirm who lives at a particular address because you sent the information to pay council tax to the wrong person living in the wrong address. Any response from me regarding this account would have been to provide you with the correct information I suspect. You really should transfer to a department like refuse collection. I would suggest you probably would be more suited to this. The control of information, its presentation and application according to the law, I would suggest are beyond your capapbilities as a human being, if that's what you are.....

Here is another account which was not properly addressed. The account at 28 Llantwit Rd, I do not own this house and I do not live there. The house is a rented property. I pay the rent there because my wife now lives there. My wife lives there because I do not want her living next to a toxic waste dump that your council say is natural land. You personally are causing her harm because you will not accept that it is a possibility that someone in you council planning department is corrupt. If she lives here (66 Brynhyfryd) she is being poisoned by your council. She has told you that I do not live there and you insist that she needs to provide documentation that she does not have to show that she lives there.

They wil not take goods to sell to pay for your council to poison my family. without my responding in self defence which is my legal right because the money you are collecting from people is being used to abuse children and to murder babies. You are now accountable for future deaths from the beginning of this email chain onwards. You have proved yourself to be a collective murderer and child abuser because the moral option is there for you to take.

You do not listen to the people who pay your wages which is why you will find yourself in extremely deep legal water if AJ Enforcement come knocking on my door again, likewise the same for AJ Enforcemnet because they are copied to these emails and they have been told and filmed and there is much more which is all recorded and ready to make public on our website. They too are collective murderers and child abusers because they now know that money they collect goes to pay for these crimes.

I would suggest you think long and hard before making any other actions that challenge my stance.

Once again, thank you for taking the time to clarify your error, Our stance remains the same.

LEGAL NOTICE - SPECIFICALLY FOR THE ATTENTION OF AJ ENFORCEMENT

Evidence of unlawful killing and Corporate Homicide has been submitted to Glynneath Town Council, Neath-Port Talbot Council and South Wales Police that has either been destroyed (by Glynneath Town Council), failed to be reported to the relevant regulatory authority (by Neath Port Talbot Council) or inappropriately investigated (by South Wales Police). These actions by the relevant regulatory authories breach the 1861 Offences Against the person Act and the 1998 Human Rights Act. Therefore all legislation that supports the Council Tax paid to these three organisations is defunct based upon their criminal activity. They have a fiduciary duty to council tax payers that is written into their regulations. The courts were informed of this failure and there is a paper trail and video evidence 6 years long identifying the deliberate refusal of Neath Port Talbot Council to uphold their responsibility with regards toxicants that can be found next to homes in Glynneath. You have a responsibilty to ensure that the money you collect is not being used for criminal activity. The money you are collecting is being used to cause Corportate Homicide against Glynneath residents. If you collect money from those who refuse to pay it then self defence against your organisation is a legal responsibility. It is a duty. I refer to the Nuremberg trials following World War II. Following orders is not a valid reason for committing atrocities. You are collecting money to murder babies:

The key elements of the Nuremberg trials were that they created a.....

Total Invalidation of the "Superior Orders" Defense

- **The Principle:** Nuremberg established that following an illegal order from a superior does not absolve a subordinate of guilt if a moral choice was theoretically possible.
- **Governance Application:** Organizations must implement robust **whistleblower protections** and clear "stop-work" authorities. Employees at any level must have a safe, legally protected channel to refuse and report unethical or illegal directives from management.

We have done our duty in reporting crimes to the police and we have told you what they are. :

https://www.walk-around-wales.com/county/npt/glynneath/enzo-development/police-reports.htm

You are now legally responsible for your actions in the knowledge that if you attempt to collect money from us, your actions are morally wrong. Please note that if you fail to follow your moral obligations, it is our duty to defend ourselves against your organisation.
